Pet Cremation Service Process & Information

Our Individual Pet cremation means that there is only one pet in the cremation chamber, cremated at a time. This means you will receive back all of your Pet's ashes (and your Pet's ashes alone).

You can either leave your precious Pet's body with your trusted vet clinic, whom will keep your pet safe in cool storage until we can collect them, or you may bring your Pet over to our premises in Wagga Wagga.

You can either book our cremation care service online via our website (anytime) or call within business hours to arrange.

Once your pet has been individually cremated (within 5 business days of full payment) we will then have your beloved Pet's ashes either returned or you may collect from our premises.

We will send you an sms to let you know you Pet is ready to be collected.

Don't hesitate to give us a call if you wish to discuss any details or make any special requests.

Reasons our clients have said they chose to use our service:

"Because it's so hard to let go. Impossible even. I wanted my puppies here with me, all the time. No brainer for me and I'm so grateful that we have beautiful local people to help us whilst in the thick of grieving."

"So they are with me forever like I promised them."

"Couldn't bear to part with each beloved dog. They are still with us, our love for them doesn't die. In their special box, their smiling doggie faces still watching all we do."

"Over the years I have had 6 dogs cremated by you. Your service is exceptional with everyone so caring and thoughtful at a very difficult time. I choose cremation because it is comforting to have the dogs ashes brought back home to me and if I move they will come with me. It just feels like they are safe again and home where they belong."

"You've done four of our babies in five years and we've chosen to have them cremated with you as you include a lot of keep sakes, which we keep forever. You do a beautiful, respectful job of cremating our beloved animals and we know during the process you have been kind and careful throughout. Cremation is important as they get to stay with you forever, and the service you provide is lovely."

"I still can't bear the thought of saying goodbye to my cats. They were 18 and 19 years old. Gidget and Gizmo. I want to keep them with me until I go. I'm thankful there was a service that could look after them locally. You were professional, courteous and understanding. Thank you from the bottom of my heart."

"Losing a beloved fur family member is difficult to navigate, but the option to cremate means that I can keep my lost friends close by throughout my lifetime, and that brings enormous comfort."

"Having some of my pets ashes in a pendant that I could have with me was a huge part of the healing journey for me."
