## Pet Cremation Service Process & Information

Our Individual Pet cremation means that there is only one pet in the cremation chamber, cremated at a time. This means you will receive back all of your Pet's ashes (and your Pet's ashes alone).

You can either leave your precious Pet's body with your trusted vet clinic, whom will keep your pet safe in cool storage until we can collect them, or you may bring your Pet to our premises in Wagga Wagga.

You can either book our cremation care service online via our website (anytime) or call within business hours to arrange.

Once your pet has been individually cremated (within 5 business days of full payment & collection) we will then have your beloved Pet's ashes either returned or you may collect from our premises.

We will send you an sms to let you know your Pet is ready to be collected.

Don't hesitate to give us a call if you wish to discuss any details or make any special requests.

## Individual Cremation Fees

Cremation is important as they get to stay with you forever, and the service you provide is lovely.”*

*“I still can't bear the thought of saying goodbye to my cats. They were 18 and 19 years old. Gidget and Gizmo. I want to keep them with me until I go. I'm thankful there was a service that could look after them locally. You were professional, courteous and understanding. Thank you from the bottom of my heart.”*
